Specially formulated by Lexmark engineers, Lexmark's pigmented black ink produces laser-quality images and text - even on plain paper.

Die pigmentierten schwarzen Lexmark Tinten wurden von Lexmark Ingenieuren nach einer speziellen Formel entwickelt und sorgen für Präsentationen und Texte in Laserdruckerqualität - sogar auf Normalpapier.

Spécialement développée par nos ingénieurs, l'encre pigmentée noire Lexmark donne un rendu texte et image d'une qualité laser exceptionnelle, même sur papier normal.

Especialmente diseñada por los ingenieros de Lexmark, la tinta negra pigmentada reproduce imágenes y textos de alta calidad incluso en papel normal.

Formulati appositamente dagli ingegneri di Lexmark, gli inchiostri neri a pigmenti Lexmark permettono di ottenere stampe con qualità laser anche su carta comune.
